

Drainage District 23
January 4, 2005

Motion by Schoer, seconded by Chalstrom to accept the City of Royal Drainage Petition asking for drainage improvements in a drainage tile commencing at the open ditch just west of the sewer lagoons of the City of Royal and authorizes the hiring of Rick Hopper, Engineer with Jacobson-Westergard & Associates, Inc. from Estherville, Iowa to prepare a report of improvements and costs to be given back to the Board. Currently, the City of Royal is served by Drainage Ditch #23. The Royalty Sub-Division is served by Drainage Ditches #23 & #108. Who would benefit from the improvements and open ditch options were discussed. Improvements would include re-classification and annexation of the affected property into Drainage Ditch #23.
