

Resolution 2016-26

Clay County endorses the National Association of Counties (NACo), The Council of State Governments Justice Center, and the American Psychiatric Association Foundation's **STEPPING UP TOGETHER Initiative** that encourages counties to approve County Resolutions supporting efforts to address the needs of persons with behavioral health issues in county jails.

To Step Up to Reduce the Number of People with Mental Illnesses in Jails:

WHEREAS, counties routinely provide treatment services to the estimated 2 million people with serious mental illnesses booked into jail each year;

WHEREAS, prevalence rates of serious mental illnesses in jails are three to six times higher than for the general public;

WHEREAS, almost three-quarters of adults with serious mental illnesses in jails have co-occurring substance use disorders;

WHEREAS, adults with mental illnesses tend to stay longer in jail and, upon release, are at a higher risk of recidivism than people without these disorders;

WHEREAS, county jails spend two to three times more on adults with mental illnesses that require interventions compared to those without these treatment needs;

WHEREAS, without the appropriate treatment and services, people with mental illnesses continue to cycle through the criminal justice system, often resulting in tragic outcomes for these individuals and their families;

WHEREAS, Clay County and all counties take pride in their responsibility to protect and enhance the health, welfare, and safety of its residents in efficient and cost-effective ways;

WHEREAS, through Stepping Up, the National Association of Counties, The Council of State Governments Justice Center, and the American Psychiatric Association Foundation are encouraging public, private, and nonprofit partners to reduce the number of people with mental illnesses in jails.

NOW, THEREFORE, LET IT BE RESOLVED, THAT Clay County does hereby sign on to the Call to Action to reduce the number of people with mental illnesses in our county jail, commit to sharing lessons learned with other counties in my state and across the country to support a national initiative and encourage all county officials, employees, and residents to participate in Stepping Up. We resolve to utilize the comprehensive resources available through Stepping Up to:

Convene or draw on a diverse team of leaders and decision makers from multiple agencies committed to safely reducing the number of people with mental illnesses in jails;

- Collect and review prevalence numbers and assess individuals' needs to better identify adults entering jails with mental illnesses and their recidivism risk, and use that baseline information to guide decision making at the system, program, and case levels;
- Examine treatment and service capacity to determine which programs and services are available in the county for people with mental illnesses and co-occurring substance use disorders, and identify state and local policy and funding barriers to minimizing contact with the justice system and providing treatment and supports in the community;
- Develop a plan with measurable outcomes that draws on the jail assessment and prevalence data and the examination of available treatment and service capacity, while considering identified barriers;
- Implement research-based approaches that advance the plan; and
- Create a process to track progress using data and information systems, and to report on successes

Roll Call Vote: : Ayes: Anderson, Brockshus, Matthews, and Skow. Nays: None. Abstentions: None.

The above and foregoing resolution was adopted by the Board of Supervisors of Clay County, Iowa on the 16th day of August, 2016.

/s/Barry G. Anderson, Chairperson
